

Preschool Lesson Plans For Children Age 2-3

I just wanted to take a few moments to explain what I have done with these lessons. I used Michelle Lewis' Skills List for Age 2 as a guide. I have also gathered ideas from various sources and incorporated some of them throughout the lessons.

I want to put links here for some of the websites that I refer to in the lessons:

Calvary Chapel (<http://www.calvarychapel.org/children/site/curriculum.htm>)

This site has hundreds of lessons to print that include fill in the blank, verses to memorize, coloring pages, puzzles, etc.

Free Online Phonics (<http://billjanaecooksey.tripod.com/Classes.html>)

Go to this site to see all about this free phonics program that is available online. As the teacher, you will have to take a test and be approved before they give you access to the lessons. They want to be sure that you are serious about teaching your child to read. I have done this and it is a neat program. It includes games to play, songs to sing, etc. Even though this is really for children age 4-5, children age 2-3 can benefit from the games and songs as well.

There are various worksheet sites I have listed on my Toddler & Preschool Fun Page. Refer to these whenever you would like letter, number, color, or shape worksheets.

These are lessons are only a guide for you. Do as much or as little as you have time for. Most important of all – make it fun! Learning should be fun! Don't force your child at this age please! This is merely a guide for you that will give you ideas of things you can do. I wasn't really wanting to do a formal "preschool" curriculum with my 2 year old son, but wanted some kind of schedule so I would know what to focus on. If I don't have a schedule a lot of times things don't get done. I hope that this schedule will allow me to use my quality time with him in a productive manner. I hope it helps you as well!

God bless,
Sheri
