### Grade 4 Word Problems Worksheet

Using the below item prices, solve the equations.

loaf of bread = \$2.11	carton of milk = \$4.17
pack of butter = \$1.82	pack of tomato sauce = \$2.95
tray of eggs = \$6.75	bottle of cooking oil = \$3.56
box of oatmeal = \$3.24	spaghetti noodles = \$5.16

- \_\_\_\_\_ What is the total cost of a tray of eggs, and 3 bottles of cooking oil?
- \_\_\_\_\_ Carl wants to buy spaghetti noodles and 2 packs of tomato sauce. How much money will he need to pay?
- \_\_\_\_\_ Ned purchased 2 cartons of milk and 2 loaves of bread. If he gave a 20-dollar bill to the store cashier, how much was his change?
- \_\_\_\_\_ On Ben's shopping list, he needs to buy 3 bottles of cooking oil and 2 trays of eggs. How much will it cost him?
- \_\_\_\_\_ Jenny bought a pack of tomato sauce, 2 cartons of milk and 2 packs of butter. If she had 18 dollars in her pocket, how much money will she have left?
- \_\_\_\_\_ Mina got the last 4 boxes of oatmeal and 2 packs of butter at the store. At the counter, she noticed that one box of oatmeal had already expired, so she returned it to the store manager. How much would she pay in all?

## Answers
