

Kindergarten

Read Aloud Activity

Children start kindergarten when they are five years old. Kindergarten classes are three to four hours long. Students go to kindergarten Monday through Friday. Kindergarten classrooms have short tables and small chairs. They also have picture books, coloring books, crayons, thick pencils, and toys.

Kindergarten teachers teach students how to: (1) say and print the alphabet, (2) write their first and last names, (3) count to 100, (4) read easy books, (5) tell time, (6) name colors, days of the week, and months of the year, (7) sing songs, (8) play games, (9) tie shoelaces, and (10) play nicely with others.
