

Scientific Method

Scientific Method Worksheet

Use this sheet & follow along the scientific method steps diagram to help plan & record your next scientific experiment!

<div>Question</div> <div>What do you want to know about? How can science help you answer the question?</div>	
<div>Research Sources</div> <div>Where did you find information about the topic of your question?</div>	
<div>Hypothesis</div> <div>What do you think is the answer to your question? Why do you think it is the answer? Can you test your prediction?</div>	
<div>How will you test your hypothesis?</div> <div>What method or process will you use?</div> <div>How will you design and perform the experiment?</div>	<div>Materials</div> <div>What supplies will you use to conduct the experiment?</div>
<div>Observation</div> <div>During the experiment what did you see, smell, here, feel?</div>	
<div>Analyze the Data</div> <div>Make a chart or graph. Does the data fits your hypothesis? Was your hypothesis correct?</div>	
<div>Conclusion</div> <div>What did you learn from the experiment? What questions do you have now?</div>
