Geometric shapes definition with examples pdf printable free pdf file

19 free geometric shapes worksheets in different formats to print, cut, color or outline that will help you learn the shapes quickly and easily. SHAPE WORKSHEETS BASIC 2D SHAPES The very basic 2 dimensional shapes to print, cut and color. A fun way to introduce geometric shapes to younger children. Print these shapes on plain white paper to color or on colored card stock to make interesting cut-outs for walls or punch a little hole in, add a string and use as tags or decorations. To print full A4 page click below, click "Print Preview" from "File" Tab, select "portrait" and 150% "Print Scale". PRINT BASIC SHAPES More common 2 dimensional and 3 dimensional shapes to print, cut and color. The next step in introducing geometric shapes to kids. A few well-known 3 dimensional shapes are added to get acquainted with circumference and depth. Print these shapes on plain white paper to color and visit the previous page to print geometric shapes to fold as an extension to the introduction of 3D shapes. To print full A4 page click below, click "Print Preview" from "File" Tab, select "portrait" and 150% "Print Scale". PRINT POLYGONS An introduction to regular polygons that can be colored in. Polygons are 2 dimensional geometric shapes with 3 and more straight sides that are bound as a closed plane figure. This geometric shapes worksheet is an introduction to polygons that shows the 3 sided to 12 sided regular polygons with their names. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 100% "Print Scale". PRINT TYPES OF POLYGONS Regular polygons, star or concave polygons and rounded polygons. The terms regular and concave polygons are mathematically correct but there are no such shapes as "round polygons" in mathematics, these shapes are not seen as polygons in maths but is a term used in the design world to describe a 2 dimensional shape with round edges. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 125% "Print Scale". PRINT POLYGONS AND SOLIDS This geometric shapes worksheet shows that all 2 dimensional polygons have angles whereas circles that are not polygons have an arc or curved side. 3D shapes are not polygons, a 3D shape that consist of all angles and no curves is called a polyhedron. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 100% "Print Scale". PRINT 3D SHAPE OUTLINES The outlines of 3 Dimensional shapes. This worksheet can also be used as a shape coloring-in page. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 100% "Print Scale". PRINT 3D SHAPES An illustration of the outlines, shading and circumference of 3 dimensional shapes. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 100% "Print Scale". PRINT Trefoil and Quatrefoil An illustration of the outlines of a trefoil and quatrefoil. These shapes consist of interlinking circles. A trefoil with 3 interlinking circles and a quatrefoil with 4 interlinking circles. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 90% "Print Scale". PRINT Quatrefoil Outlines The outlines of a quatrefoil. These shapes are intriguing and are often used in interior and architectural designs as a focal point and we see them often in geometric patterns and design. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 90% "Print Scale". PRINT Trefoil Outlines The outlines of a trefoil. Just as popular as the quatrefoil in the design world but only with 3 interlinking circles. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 90% "Print Scale". PRINT Shape Names 15 Geometric shapes with their names. The order of these geometric figures in this geometric worksheet will help with easy learning and identification of these shapes. Clear visualization of the difference between an oval and ellipse, polygons and other geometric shapes will assist all learners. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 100% "Print Scale". PRINT Name The Shapes 15 Geometric shapes without their names to be completed by learners to test their knowledge. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 100% "Print Scale". PRINT Shapes To Know 16 Geometric shapes with their names to assist learners. This worksheet includes the pie shape, 5 point star and cube. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 100% "Print Scale". PRINT Geometric Shapes With Names 20 Geometric shapes with their names. The order of these geometric figures in this geometric worksheet will assist with easy learning and identification of these shapes which includes the curvilinear triangle, quatrefoil, trapeziod, trapezium, kite and rhombus. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 100% "Print Scale". PRINT Name The Geometric Shapes 20 Geometric shapes worksheet without their names. Fill in the names. 20 shapes including the curvilinear triangle, quatrefoil, trapeziod, trapezium, kite and rhombus.To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 100% "Print Scale". PRINT Outline The Geometric Shapes 20 Geometric shapes worksheet without their names to draw/outline. Fill in the names. 20 shapes including the ellipse, crescent, curvilinear triangle, quatrefoil, trapeziod, trapezium, kite, rhombus, pentagon, hexagon, heptagon, ocatagon, nonagon and decagon. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 100% "Print Scale". PRINT 2D Shapes Color Sixteen 2D Geometric shapes worksheet with names in color. The shapes include sphere, cube, cuboid, cone, square and triangular-based pyramid, cylinder, hexagonal prism, triangular prism. To print full page click below, click "Print Preview" from "File" Tab, select "portrait" and 100% "Print Scale". PRINT 3D Shapes Color Nine 3D Geometric shapes worksheet with names in color. The shapes include sphere, cube, cuboid, cone, square and triangular-based pyramid, cylinder, hexagonal prism, triangular prism. To print full page click below, click "Print Preview" from "File" Tab, select "portrait" and 100% "Print Scale". PRINT Geometric Shapes - Outline, Cut, Write, Color 6 Basic geometric shapes worksheet with their names to draw, outline, color, cut. Trace the names, outline the shapes. The 6 shapes includes the rectangle, diamond, heart, oval, star and crescent. To print full page click below, click "Print Preview" from "File" Tab, select "landscape" and 100% "Print Scale". PRINT 3D Geometric Shapes To Print and Fold 19 Three dimensional shapes with names in a variety of clear and colored images to print, cut and fold. Shapes included: cone, cube, cuboid, cylinder, dodecahedron, hexagonal prism, variety of pyramids, 3D houses, icosahedron, octagonal prism, octahedron, pentagonal prism, rectangular prism, rhombic prism, tetrahedron, trapezoidal prism, triangular prism. PRINT GEOMETRIC SHAPES WORKSHEETS SUMMARY SOCIAL FUN Our recommendation lists makes it easier to find the perfect product. There are more than 30 categories. Click on any image below to view. Free party decorations, ideas, fun birthday party themes and party kits for kids. Do-it-yourself free party printables, games, tags, labels, party hats, invitations, favor bags, banners and more. Several collections of basic 2D two dimensional, solid 3D three dimensional geometric shapes to print. Designs, patterns to cut, 3D math nets to fold paper models, printable coloring, math worksheets. For more than 25,000 fun ideas posted over the years, including but not limited to: free printable goodies, party ideas for old and young, fun games, amazing arts and crafts, funny stuff, free templates and so much more - LOOK HERE! + follow us! FOR MORE SHAPES VISIT: Geometric Shapes To Print, Cut, Color and Fold Geometric Patterns and Shapes 3D Geometric Shapes Tangram Puzzles and Shapes Free Templates Return to: Fun Stuff To Do - HOME PAGE Have students practice shapes at home! With this book, students can work with their parents, siblings, and others to write a sentence, draw a picture, and find examples of shapes at home. File inclues pages for circle, triangle, square, rectangle, parallelogram, rhombus, pentagon, trapeziod, hexagon, octogon, and NOW a polygon, too! I've also added one fun "bonus" page, asking students what shape they found the most often, which shape was easiest to find, and why! Print off this book to assiPage 2
