It offers readers essential support with “ digging into ” and analyzing data that has to date remained difficult to access.

The Clinical Assessment of Language Comprehension Teacher Created Materials

Drawing on work from a number of disciplines, this volume brings together experimental and theoretical information relevant to the problems of assessing children's reading comprehension. After a short introduction, the first section defines reading comprehension, presenting theoretical issues intended to provide an understanding of what is being measured and what that measurement means. The second section covers factors that influence reading comprehension and its assessment, stressing the importance of structure, content, and language of the text for the reader's comprehension of it, particularly in the context of his or her background knowledge. The third section deals with assessment methodology, including its purposes, the constraints on it, and the cognitive demands and information content of different assessment methods. The volume's final section charts new directions in reading comprehension assessment, asking what can and should be assessed and how this assessment might be carried out and also addressing question construction and the characteristics and interpretation of tests. The Very Hungry Caterpillar Comprehension Assessment Springer

Originating in a recent CIERA conference held at the University of Michigan, this book brings together the nation's most distinguished researchers to examine how readers understand text and how comprehension is assessed. The first part provides both national and historical contexts for the study of reading comprehension. The second part examines how vocabulary, motivation, and expertise influence comprehension, and it includes analyses of the developmental course and correlates of comprehension. Chapters in the third part consider how schools focus on comprehension for instruction and assessment. The fourth part includes chapters on large-scale assessment that analyze how test formats and psychometric characteristics influence measures of reading comprehension. At the end of each part is a commentary--written by an expert--that reviews the chapters, critiques the main points, and synthesizes critical issues. Key features of this outstanding new book include: *Integration of Research and Practice--provides a bridge between conceptual issues studied by researchers concerned with reading comprehension theories and practical issues addressed by educators concerned with classroom instruction and assessment. *Comprehension Focus--provides a thorough history and rigorous research-based analyses of reading comprehension. *Assessment Focus--provides innovative approaches to comprehension assessment that include the influences of vocabulary, decoding, and motivation. *Synthetic Commentaries--provides periodic summaries that analyze and synthesize research, practices, and issues discussed in each part. *Expertise--contributing authors and commentators are highly respected authorities on reading comprehension (see table of contents). This text is appropriate for educational and psychological researchers, reading educators, and graduate students in education and psychology. It is part of the CIERA series, which includes the following volumes: Taylor and Pearson: Teaching Reading: Effective Schools, Accomplished Teachers (2002) Van Kleeck, Stahl, and Bauer: On Reading Books to Children: Parents and Teachers (2003) Hoffman and Schallert: The Texts in Elementary Classrooms (2005)

Developed by renowned author Ellin Keene, Assessing Comprehension Thinking Strategies is an ideal tool for assessing students' reading comprehension. This book offers a unique way of assessing how students use thinking strategies to comprehend text and features four reading passages for each grade level (1-8) that offer high-interest fiction and nonfiction text. Each assessment is accompanied by a rubric that allows you to document students' thinking and then score and monitor their growth. Strategies assessed include thinking aloud, using schema, inferring, asking questions, determining importance in text, setting a purpose for reading, monitoring comprehension, visualizing, synthesizing and retelling, and story structure/structural patterns. The assessments can be used in various ways to inform instruction and to assess learning. All passages, assessments, and rubrics are provided on the Teacher Resource CD and the assessments and rubrics can be customized. This resource is correlated to the Common Core State Standards. 88pp.
