

10/9/15 Period:

*Today is Day 2

FOAA Start Up Tasks:

- Please open up both of the files that you worked on Wednesday during class. (Nutsandboltsarticle2.pdf and 270towinactivity_1.pfd) They can be found on the FOA Documents link. All prompts and questions on these are due by our next class meeting. Make sure that you have shared them when they are done.
- Also, open up the introductiontoarticle2--theexecutivebranch_1_.pdf file on the FOA Documents link. You will work on this assignment today

Class Activities:

- All three of the above activities should be finished by the next class meeting. Use your time wisely today and you will have no homework. There is PLENTY of time to complete all three between last class period and today.

Homework:

- Let's imagine that you didn't use your time very wisely. All three of the above activities should be finished by the next class meeting

Start Up Task:

- 1) Open up the blankreviewguideforsociologyunit1.pdf file from the Sociology Docs link. Fill in all the blanks with facts/information/answers by using your notes and the files we have read and used that are posted on the website (Sociology Docs and Sociological Imagination links) You have had this assignment available for days, so I expect that it is partially to fully filled in already!
- 2) Make sure that you share your Feel Good Friday links in the googledoc that I shared with each of you. Save the paper or the e-version of your Feel Good Friday response worksheet until we meet together next week

Goals:

Introducing Sociological Imagination

Analyze the Origins of Sociology

Class Activities:

- 1) Complete the work mentioned in the Start up Tasks before next class meeting. We have an exam next Thursday, so review for it!
