Calligraphy practice worksheets free

Calligraphy practice sheets are all the rage these days, and FREE makes everything even better. The reason for this popularity is that there is no better way to give yourself structured practice when you are first starting out. Once you get a handle on your first script, you will understand the best way you learn personally. But until then, these will allow you to get a jump start on learning a lifelong skill. So if you are a beginner, the question is what calligraphy script are you interested in learning? What alphabets do you want to master? If you are unsure at this point but you want to get a little taste of what kind of calligraphic scripts (or incorrectly called "fonts") you can quickly check out my post on the Complete Beginners Guide. Modern Brush Calligraphy First off, the most popular of the free calligraphy practice sheets. These modern calligraphy practice sheets are designed to be completed with any brush pen or even Crayola Markers. Above is an example of the first page of what the calligraphy practice sheet looks like. The letters are separated into each singular brush stroke and every change in direction is numbered and indicated by an arrow. There is then space to the right of the example letter for you to practice the letter as many times as you can. If you would like to see me go through these practice sheets stroke by stroke check out my Modern Brush Calligraphy Tutorial video. Just so you are aware... Learn Modern Brush Calligraphy: From Basic Strokes to Complete Compositions! have a Masterclass modern brush workbook on sale now, it will start you at the absolute basics and teach you connections, flourishing and calligraphy compositions. Check it out if you are interested ☺. Anyway, onto the freebies. To download the FREE Modern Brush Calligraphy Practice sheets please click here: Gothic Blackletter Lowercase (for Beginners) Up second is the lowercase blackletter sheets. If you are just starting to learn how to use a broad edge pen to write blackletter scripts, this is the perfect script to begin with. This sheet is designed for the 6mm Pilot Parallel Pen and is 4 nib widths high. This set of sheets are not in alphabetical order but instead are in order of difficulty. Starting with "t" the letters get more complicated and move into the ascenders and descenders (uppercase and lowercase letters). There are no arrows on this set of practice sheets to indicate direction, but I made a detailed video demonstrating how to properly utilize broad edge pens for blackletter calligraphy. Follow along with my video here: Learning Simple Gothic To download the FREE Lowercase Blackletter Calligraphy Practice sheets please click here: Gothic Blackletter Capitals Similar to the previous set of practice sheets this now covers the blackletter capitals. This set has a bit higher difficulty and includes hairlines and rotations. If you are unsure on how to complete these strokes feel free to check out this blackletter capital practice video that goes through these exact practice sheets! To download the FREE Blackletter Capitals Calligraphy Practice sheets please click here: Copperplate Practice Sheets Lastly, (for now), are the copperplate practice sheets. They include a 55-degree slanted line grid which is standard to the copperplate script and an example of each letter written on the first line. These are for the more experienced pointed pen users but this script is one that requires the most practice. So why not download a free copperplate practice sheet for the many hours of practice, to get those sweet, sweet fancy letters. I do also have a premium Copperplate workbook available that teaches everything from basic strokes and letters, to connections and words and even flourishing and compositions. I also have a video course going through them if you want a more guided approach. If that's something you want to check out its over on my store. But to download the FREE Copperplate Calligraphy Practice sheets please click here: Faux Calligraphy Did I just say 4? Well, I'm going to include a 5th "bonus" free practice sheet. "Faux" calligraphy is the best to start with if you don't have tools. Its a type of bubble letter that mimics brush letter calligraphy. Monoline and Faux Calligraphy Practice Sheets! have also put together a master class sheet set that is beginner friendly. It teaches monoline calligraphy and faux calligraphy in a 40 page PDF. ON SALE NOW To download the FREE Faux Calligraphy Practice sheets please click here: With the sheets you can follow along with my video here: How to Learn Faux Calligraphy If you found any of these sheets helpful... The TPK blog is peppered with free printable calligraphy practice sheets to help you improve your penmanship! However, with 400+ blog posts on this site, some of the best freebies may have eluded you. For that reason, I decided to create a compilation of the free dip pen and brush pen calligraphy practice sheets and present them to you in this article. Some may look familiar, while others may be new to you! My hope is that these will help you to set aside some "me time" to improve your penmanship, relax, and indulge your creativity. 1. Standard Calligraphy Worksheets For every premium TPK calligraphy worksheet set, there's a very basic 1-2 page version! I have grouped all of the standard calligraphy practice sheets in bullet points below the photo. Regardless of which templates you download, it's best to print on 32# laserjet paper, which will accommodate your dip pen beautifully! This is the Basic Janet Style Calligraphy Exemplar. Notice that there are no instructions, I intend for you to observe the example letters and mimic them on the line below for practice! All premium worksheets feature detailed instructions. You can find all the free versions of the worksheets at these links: 2. Printable "Flourish by Number" Bunny Don't let this bunny's elegant looks fool you, he's one big calligraphy drill! All of the loops and swirls that make him look like a rabbit are actually designed to give you quality calligraphy practice. You can find this two-page "flourish by number" by clicking here. 3. Printable Not Your Average Calligraphy Drills Sheet The Not Your Average Calligraphy Drills Sheet provides ample fun and challenging calligraphy drills. Some of these drills border on traditional, while others like "tsunami" and "fingerprint" have a modern twist! You can find this Not Your Average Calligraphy Drills Sheet by clicking here. All of the drills will improve your level of comfort using a dip pen. Filling out this sheet will require a fair time investment (30 minutes to an hour), but you'll love the sense of accomplishment that you feel once you finish! 4. 11 Calming Calligraphy Drills Sheet The 11 Calming Calligraphy Drills printable relies on repetition to help you wind down while you simultaneously work on your dip pen skills! The soft curves and slight flourishes are relaxing to make, but they still provide a challenge that will keep you focused on the task at hand. You can find the 11 Calming Calligraphy Drills sheet here. 5. Calligraphy Spacing Cross Drills Worksheet It can be really tough to write words with letters that are spaced a consistent distance apart. All letters have different widths — for example, think about an "t" versus an "m" — so it's impossible to use math to ensure consistency. You just have to "eyeball it" You can download the Calligraphy Spacing Cross Drills Worksheet here. The Calligraphy Spacing Cross Drills Worksheet helps you to develop spacing judgment. The idea is to make a grid of letters. The first letter, "o", is done for you, then you choose which letters you'll use for the next three grids! 6. Free Printable Instructions: Flourished Bee Calligraphy Tutorial Practice your calligraphy by making a gorgeous flourished bee! He's an absolute delight that will provide you with some quality one on one dip pen time. You can find this eBook by clicking here. 7. Brush Pen Calligraphy Worksheet In 2015, I released the free Brush Pen Calligraphy Worksheet. It remains one of the most popular freebies on the TPK website today! If you're interested in brush pen calligraphy, then you'll really enjoy this printable. It walks you through the different brush pen strokes and provides a bit of letter practice as well! I originally created the free Brush Pen Worksheet with a brown pen, but you can print it off in black and white to save your colored ink! Some people are firmly rooted in either the dip pen calligraphy camp or the brush pen calligraphy camp. While I generally lean toward making things with a dip pen, I appreciate the ease of the brush pen, and I use it often! If you've never tried using a brush pen, it's worth a try. 8. Brush Pen Calligraphy Worksheet. Neat Slant Edition The Brush Pen Calligraphy Worksheet. Neat Slant Edition provides similar practice to the original Brush Pen Calligraphy Worksheet. The difference lies in its slant and the neatness of the letters. Where the original worksheet celebrates more of a modern, loose style, the Neat Slant Edition reveals in, well, neatness. You can find the Brush Pen Calligraphy Worksheet: Neat Slant Edition by clicking here. 9. Not Your Average Brush Pen Calligraphy Drills The Not Your Average Brush Pen Calligraphy Drills sheet provides five unique brush pen drills that will improve your comfort level with using a brush pen. Pressure exertion is a big thing in brush pen calligraphy — perhaps even more so than in dip pen calligraphy! For that reason, all of the drills encourage you to practice your thin upstrokes and your thick downstrokes. This fun brush pen drills worksheet is available for free here. While you may have known about a couple of these free printable calligraphy practice sheets, I hope that you found a few more favorites today! Remember that all worksheets are best viewed using the latest version of your PDF reader. If you have trouble viewing or printing any of these sheets, try downloading the current Adobe Reader (it's free)! Thanks very, very much for reading TPK, and enjoy the rest of your week! Warmly,
