

Following directions worksheets for kindergarten

Continue

Royal Castle Floor Plan    FREE Learn the cardinal directions of North, South, West, and East with this fun direction-following activity.Lakeside Campground Map    FREE Use the map of "Lakeside Campground" to answer the questions about the cardinal directions North, South, East, and West.As you travel around this neighborhood, tell which direction you're moving.    Includes cardinal directions: North, West, South, and East.Students write exactly where they live, including continent, country, state, town, and street.This map of the USA shows major industries of mining, farming, lumber, oil, and fishing.    Use the map to answer the questions. Spell Out Short Vowel WordsSpell Out Short Vowel WordsIn this early literacy worksheet, learners will add A, E, I, O, or U to complete nine three-letter words.KindergartenReading & Writing Our printable position worksheets are the things your kindergarten kids need, if you intend to lay a strong foundation to spatial math concepts or to enhance vocabulary. Corralled in these pdfs are engaging exercises interspersed with words that we use in our day-to-day conversations to point out directions and to describe the placement of things, people, and shapes relative to them and to the other objects. Spatial skills have proven to transfer into mathematical abilities, and these worksheets will help you with a hefty slice of practice to develop them. Our free position worksheets for kindergarten are your ticket to a great start. Near and Far Beside and Next to Before and After Up and Down Over and Under Inside and Outside Worksheets Work on developing spatial skills as you walk your little ones through the exercises packed with illustrations depicting the placement of objects inside and outside in our printable position worksheets for kindergarten. Left and Right Worksheets Encourage kids to use gestures when practicing the two spatial words and don't forget to play "Simon Says". The visually appealing exercises help children practice right and left discrimination with an enormous collection of engaging activities to identify the two. Above and Below Worksheets Administer this battery of tasks that are sure to improve positional awareness in kids and help them comprehend the meaning of the words above and below and learn to use them appropriately with our positional words worksheet pdfs. Top and Bottom Worksheets With the greatest likelihood of helping kids identify the two positions top and bottom, our exercises are a perfect blend of fun and learning. Whether it's checking or crossing, tracing, drawing, or coloring, we have them all for your little math nerds. Front and Behind Worksheets Develop the ability to visually perceive two or more objects in relation to each other in this collection of position and direction worksheets. Identifying the objects that are in front of or behind, other objects is all kids need to do as they skim through these activities. Near and Far Worksheets Being able to tell how far objects are from you and from each other is another skill that involves visual-spatial processing that kindergarten kids will practice using our printable positional words worksheets comprising a collection of visually appealing exercises that are bound to hold the attention of kids. Beside and Next to Worksheets Next in line in this collection are a unique set of worksheets that specifically focus on a synonymous pair of words: beside and next to that define the placement of an object. With activities like drawing, coloring, cut and glue there'll be no dearth of practice material. Before and After Worksheets What goes before and what comes after are the two concepts that kids will understand, learn to differentiate, and use them in the correct context with our pdfs encompassing a variety of interesting exercises to bolster the ability to give and follow directions and to sequence the information. Up and Down Worksheets Encourage kids to demonstrate their knowledge of the two opposite words: up and down by pointing to or verbally expressing themselves by answering questions, or by following directions presented in these printable worksheets and eventually develop math skills. Over and Under Worksheets Cultivate early literacy skills as kindergarten kids point out to objects over and under other objects and distinguish between the two words as they make stride after stride through our directional and positional words worksheet pdfs. Sample Worksheets Left and Right Above and Below Inside and Outside Front and Behind As teachers, sometimes we give our students directions but then are surprised (or disappointed) that they don't follow them. No names on papers? No titles on compositions? No answers rounded to the nearest tenth? We all face these problems in our students but we can correct some of these behaviors by teaching the skills required for students to be able to follow directions. If you find yourself confronting such problems while grading papers, your students may not be paying attention to directions. Although most successful students recognize the importance of reading instructions thoroughly and following them, some students may master the skill slowly. Education World provides five intriguing lessons to help your students read, write, follow, and even evaluate directions. Included: Lessons that make following directions fruitful and fun! Surprised to see a number of students suddenly leave the room only halfway through an exam, the professor followed them into the corridor. He discovered the students completing the balance of the questions while leaning against the walls. When he asked for an explanation, one student pointed to the third question, which asked "Describe Hemingway's The Old Man and the Sea. You may supply a drawing but please leave room to answer." Sadly, this joke may not ring very true for many teachers today. Unfortunately, in the rush to complete assignments, students often race past directions to get to the "meat" of their work. In desperation, some teachers have hidden the answer to a simple question, or a hint to a tougher one, within the directions of an exam, just to encourage students to read the directions! There are ways to help students recognize the value of reading instructions before beginning an assignment and following them throughout. Elementary teachers may hold a "bear hunt." Students bring in teddy bears, hide them within the classroom or school, and then create lists of directions for others to follow to locate the bears. Teachers of older students may craft a page of instructions that students must read in their entirety before beginning to work and include as the last one, "Ignore all of the directions above and turn in your paper." The Internet provides even more opportunities to emphasize directions with lesson plans, how-to's, and recipes! This week, Education World provides lessons about following directions. Click on each of the lesson headlines below for a complete teaching resource. Approximate grade levels are in parentheses. How Well Do You Follow Directions? This easy-to-use activity teaches valuable lessons about the importance of listening and following directions. (Grades K-12) Phil's Fish Shop Taking on the roles of new employees in a pet shop, students offer advice to customers, answer questions, and create a handbook of instructions for new fish owners. (Grades 3-8) Critics of Cuisine As food critics, students follow directions to create culinary delights and then critique the recipes and the flavor of their products. (Grades 3-12) The Magician's Apprentice Teaching the skill of following directions requires a little hocus-pocus in this lesson. Students re-create magic tricks, evaluate the clarity of the instructions, and teach an apprentice how to perform a trick. (Grades 3-8) George Washington Teaches Map Directions If students follow "directions," they'll have a picture of George Washington. (Grades 3-8) Parachute Drop Students experiment with gravity as they follow directions to create parachutes that will carry paperclip passengers safely to the ground. (Grades 1-3) 30 Classroom Procedures to Head Off Behavior Problems To keep your days running smoothly, establish consistency using these general procedures, daily tasks, and activities. Free Following Directions Worksheets Teach-nology provides several adorable coloring sheets with simple instructions to follow. Last updated: 11/22/19 Tracing numbers 1 to 20 for the fall theme in preschool and kindergarten. Trace the numbers and color the fall leaves. Search for the alphabet letters in both - upper and lowercase and color the apples. Children will practice alphabet recognition, following directions, and fine motor skills. Sight word flash cards to print at home or at school - the full Dolch sight word list as well as first 200 words from Fry's list. Simple sight words coloring pages will make learning sight words fun! Add paint, glitter, glue and tissue paper and decorate one sight word each day. Colorful bookmarks for learning the first 100 sight words in kindergarten and grade 1. An easy way to practice sight words at home, at school or on the go. Fun back to school worksheets for your pre-k and kindergarten students to practice repeating patterns. Free printable 2d shape puzzles for toddlers and preschoolers! Your little ones will learn their shapes and colors with these basic shape puzzles. There... Free printable back to school mazes for kids! Get your kids and students excited about going back to school with these printable back to... These cut and paste sight words worksheets are a fun way to practice sight words in kindergarten! Fun printable for your kindergarten students learning... Enjoy this summer camping I spy printable with your kids! Whether you're heading out for a camping trip or simply need no-prep summer worksheets... Have fun making 2d shapes with dot marker printables! Your kids will enjoy learning about the basic shapes with these do a dot printables!... Enjoy some brand new capital and small letters worksheets for your children or students! Help your child with proper letter formation and alphabet writing... Let your kids have fun using these printable trace letters strips! Children will love tracing and learning to write their alphabet letters with these... Free printable ten frame worksheets for the summer theme! Grab this fun summer printable for your kindergarten students! They will love counting sea shells... Free printable digraph ch worksheets for your budding readers! Your kids and students will LOVE to practice digraphs with these free printable ch worksheets... Fun summer worksheets to practice ordering numbers from the smallest to the greatest! This set of worksheets will work with children in kindergarten and... Grab these comparing greatest and smallest number worksheets for your kindergarten and 1st grade students today! Help your kids grow their number sense with... Fun kindergarten summer packet full of no-prep activities for your rising first graders! This kindergarten summer review packet was created out of my own... Try these summer patterns worksheets with your kindergarten kids today! The summer is nearly here so let's celebrate the season with some fun math... Grab these free do a dot number printables to learn numbers 1 to 20! Children will love learning their numbers 1-20 with these free...
