This is the only worksheet maker that allows you to use the unique, easy Handwriting Without Tears font for letter formation success. For handwriting success, use these three instructional stages to create additional worksheets appropriate for students. Stage 1: Direction Instruction The child watches as the teacher writes then imitates. For example, create a worksheet using "My Turn, Your Turn." Stage 2: Guided Practice The child looks at the completed model of a letter, word, or sentence and copies it to match the model. Use guided practice as an opportunity to practice spelling words. Stage 3: Independent Practice The child writes unassisted, without a demonstration or a model. For example, create a worksheet in which children produce sentences using given vocabulary words.
