Instructions for Making

On the numbered list shown on the next page of this file, you will type a name in each numbered box.

When you do this, the pages afterward will automatically be customized for the names entered.

If you don't have 24 names to do, leave any extra spaces blank and just don't print those pages.

If you need more than 24 name sheets, you will need to make the first 24, print and then come back and do the names for the remaining students.

****Note:** This will only work for names that are about 9 letters or less – especially if you are doing the names in all uppercase letters. You will have to test it and see if it will work for you.******

How to Use these Name Printables

In the first box I added small 0.25" dot stickers (color coding labels) under each letter of every name for easy tracking.

Have students spell their name by placing a finger on each dot while saying the name of each letter as they go across. Then have them say their name out loud.

In the next box they will build their name with alphabet beads, alphabet magnets or letter tiles.

And in the final box they will trace their name.
