

Units of length: inches, feet, yards & miles

Grade 3 Measurement Worksheet

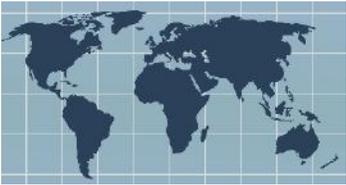

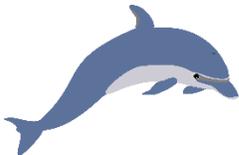

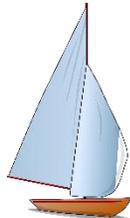

Circle the proper units.

<p>Distance between two continents</p> 	<p>Distance of a marathon race</p> 	<p>Length of a baby's feet</p> 
inches / yard / miles	feet / yards / miles	inches / feet / yards
<p>Length of a dolphin</p> 	<p>Width of a towel</p> 	<p>Length of a sailboat</p> 
inches / feet / yards	inches / yards / miles	inches / yards / miles
<p>Size of a frying pan</p> 	<p>Length of a golf course</p> 	<p>Height of a door</p> 
inches / feet / yards	inches / yards / miles	inches / feet / miles

We measure short lengths (like pencils) in inches and longer lengths in feet or yards.

We measure very long distances in miles.

Answers

<p>Distance between two continents</p> 	<p>Distance of a marathon race</p> 	<p>Length of a baby's feet</p> 
<p>inches / yard / miles</p>	<p>feet / yards / miles</p>	<p>inches / feet / yards</p>
<p>Length of a dolphin</p> 	<p>Width of a towel</p> 	<p>Length of a sailboat</p> 
<p>inches / feet / yards</p>	<p>inches / yards / miles</p>	<p>inches / yards / miles</p>
<p>Size of a frying pan</p> 	<p>Length of a golf course</p> 	<p>Height of a door</p> 
<p>inches / feet / yards</p>	<p>inches / yards / miles</p>	<p>inches / feet / miles</p>
